

The California Division of Boating & Waterways is currently recruiting for Marine Law Enforcement Training Instructors. The Division will be expanding its course offerings in the coming year in order to make training available in a more geographically diverse area. This will allow all counties of the State increased ability to participate in DBW offered training. Additionally, DBW will be adding a select number of NASBLA courses in order to maintain a national standard level of training and to increase our interoperability with other agencies nationwide.

Interested applicants will need to locate the Instructor Recruitment and Course Interest checklists on this webpage. All interested individuals should complete their application packet as thoroughly as possible in order to ensure the best opportunity of being selected. All documents should be submitted to the below physical address no later than 11/28/14.

Prior experience as an instructor will not be required as the Division wishes to open up the selection process to all interested candidates who believe they may be qualified for the position. After DBW review of submitted application packets, the most qualified individuals will be selected to participate in an oral interview which may include a mock presentation.

We are excited about the advancement of our training program and we look forward to hearing from you!

Thank you for your continued support,

**Brian Carroll**
