Other workshops are anticipated in Orange County, Los Angeles County, the Santa Barbara / Ventura area, Monterey Bay, San Francisco Bay and Eureka later this spring

This workshop is for the purpose of obtaining comments from the public, including representatives of public agencies, private and non-profit organizations, and interested individuals, as the Master Plan process is being initiated. The Master Plan is being prepared by the State of California Resources Agency and the U.S. Army Corps of Engineers. The Master Plan focuses on developing an implementation strategy for integrated, region-wide solutions to sediment management problems. Examples of the issues to be addressed by the Master Plan are beach erosion and excess sedimentation in coastal wetlands and harbors. Visit the Master Plan website for details:
